Why should YOU get involved before Election Day 2010?

"You and I have a rendezvous with destiny. We will preserve for our children this, the last best hope of man on earth, or we will sentence them to take the first step into a thousand years of darkness. If we fail, at least let our children and our children's children say of us we justified our brief moment here. We did all that could be done."

TCRWF ELECTS 2011 OFFICERS

At the September 13, 2010 TCRWF Membership meeting, the TCRWF Nominating Committee submitted nominations for the 2011 elected officers. Diana Sheen, Chair of the Nominating Committee, submitted the following recommendations for each of the elected positions. The nominations were:

- | | |
|----------------------|------------------|
| President | Diana Sheen |
| 1st Vice President | Joann Mathis |
| 2nd Vice President | Shirley Dills |
| 3rd Vice President | Judy Lorenz |
| Membership Secretary | Sally Styczynski |
| Recording Secretary | Beverly Leeder |
| Treasurer | Patsy Nelson |

The Chair called for further nominations from the floor. There being no further nominations, a vote was taken. By unanimous vote of the members present, the slate of officers were elected for 2011.

Please come join us at our November 8, 2010 lunch meeting and installation of the 2011 officers.

What a wonderful time we had in Hayfork on October 4th. Mother Nature was kind to us (important as this was an outdoor event), and we had a lively crowd (over 40 people) with good questions for the candidates. The candidates reviewed their qualifications and agendas when they are elected. We have a new member from Hayfork, Regan Eaches and her husband Gary as associate. Welcome and thank you for welcoming us to your home and setting everything up for us.

Hal and I were recently in Medford, Oregon for a Jazz Festival (music was great) and we stopped in at the Republican Headquarters on Main St. in downtown Medford. They had 8 volunteers working there and 5 were Republican Women. I spoke to Ruth Brodman 1st VP for the Jackson County Republican Women and what a dynamo! They have the largest club in Oregon with 140 members. We are going to stay connected. After speaking with her and receiving one of their brochures, I realized we are doing many of the things they are doing with our website, speakers, and membership materials, with far fewer numbers so we should congratulate ourselves, ladies!

Our next event will be a luncheon with our Congressman Wally Herger on October 18th at the LaGrange Café at 11:30. There will be a select menu so the cost will vary. This is not a meeting but a social time with our Congressman. We hope you can join us!

"Work and family are at the center of our lives, the foundation of our dignity as a free people."
President Ronald Reagan

CHAPLAIN'S CORNER

Beverly Leeder, Chaplain

As a nation, we will pause once again in this month of November to give thanks. On November 11, we will set aside the day to honor our veterans and thank them all (whether active, inactive or deceased) for their valiant acts of service to our country. Let us never forget their courage and their sacrifices. Then on the last Thursday of November as proclaimed by President Lincoln, we set aside the day as "a day of thanksgiving and praise to our beneficent Father" for the many blessings we continue to enjoy in America "under God."

In agreement with President George Washington's Thanksgiving Proclamation of 1789, we pray: "May we all unite in rendering unto God our sincere and humble thanks for His kind care and protection of the people of this country, for the great degree of tranquility, union, and plenty which we have enjoyed and may we also unite in most humbly offering our prayers and supplications to the great Lord and Ruler of Nations and beseech Him to pardon our national and other transgressions and to protect and guide all nations and to bless them with good government, peace, and concord." Amen.

President Obama's "Stimulus" Failing to Create Jobs — October 15, 2010

Last Friday the Department of Labor announced that the nation's unemployment rate for September was 9.6% after another 95,000 jobs were lost during the month. This latest set of bad employment news further demonstrates the severity of our economic downturn and the pain that nearly fifteen million Americans are going through as they struggle to find work to pay their bills, provide for their family, and keep a roof over their head.

From his first days in the Oval Office, President Obama urged members of Congress to support a "recovery plan" centered on the theory that, in severe downturns, the government must step in to boost "demand" in the economy. During debate on the proposal, as a top selling point, one of the President's top economic advisors promised that the unemployment rate would remain below 8 percent if Congress passed the \$862 billion stimulus spending plan. The Democrat-controlled Congress subsequently passed the plan into law in February 2009.

Unfortunately, this September jobs report demonstrates that the stimulus has not created the jobs promised by the Obama Administration. In fact, our economy now has 7.3 million fewer jobs than originally forecast. Further, September was the 17th consecutive month that the national unemployment rate has remained above 9%. In our area, every county in California's Second Congressional District region has seen a significant increase in unemployment since the legislation became law. I have talked with Northern Californians across our region and they are fed up with this Administration's constant efforts to shift blame and unsubstantiated assertions that the economy would be even worse-off if the stimulus hadn't passed. Americans want strong job growth, not a lowering bar for success and excuses for continued job losses. They're also deeply concerned that the President's stimulus

plan has severely worsened the debt crisis in our nation—with little to show for it.

The failure of the stimulus results from a failure to understand the simple truth that small businesses and entrepreneurs create jobs, not the federal government. To foster real economic growth and job creation, Congress must immediately pass legislation to block the nearly \$4 trillion tax increase on every family and small business that is scheduled to take effect on January 1, 2011. This would provide our nation's job creators with the certainty that they won't have to send even more money back to Washington in just a few months. Raising taxes, on the other hand, would only worsen the already poor jobs market.

Additionally, Congress should immediately repeal the recently passed health care law and replace it with commonsense solutions to lower health care costs. Sadly, small business leaders in Northern California are already sharing with me that they are cancelling their plans to expand their businesses and create new jobs because of the costly requirements of ObamaCare. Further, Congress needs to empower small businesses and entrepreneurs by simplifying our tax system and passing pending trade agreements to allow U.S. producers to compete on a level playing field in global markets.

The North State must be in a position to share in a nationwide economic recovery. Again, I believe that economic progress for our region will come not from bureaucrats in Washington or Sacramento, but from the creativity and hard work of our own free people. Instead of more handouts, government needs to give a "hand up" to those in our communities who want to pursue their own unique vision of the American dream. Remarkably, the federal tax code currently provides incentives for investment and hiring in parts of Boston, New York, and Los Angeles, but not in rural Northern California communities. I recently introduced the bipartisan Rural Microbusiness Investment Credit Act, which would provide a federal investment tax credit for entrepreneurs who start businesses in rural areas with high rates of poverty and unemployment. I will also continue to advocate for reform of Imbalanced environmental regulations that are standing in the way of local job creation.

The damage of the financial crisis was severe, but I believe our nation's economy has the potential to surge ahead and reach new heights of prosperity. The evidence, however, clearly demonstrates that more government spending and higher taxes are not the solution – rather, they are a deadweight pulling down our economy. I firmly believe it is high time that Washington gets out of the way and unleashes the ingenuity of the American entrepreneur and small business leader—the true engine for job creation and strong economic growth in our nation.
